

District unveils their new website

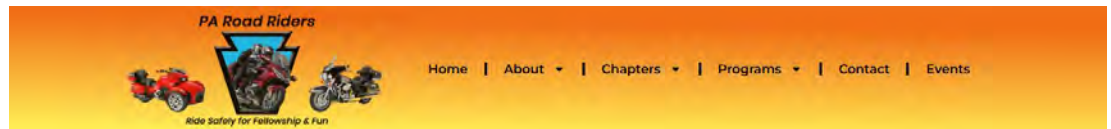

Our new District has a new website! Check out PARoadRiders.org today for all the information on our new District. The site was created by Carla Dawejko and is still a work in progress. We have most of the basic features in place, so that both members and visitors can see what our District and our Chapters are all about. There are more features coming soon such as a membership directory. In order to keep this website functional, we need help from each of you! Please send Carla your events, and any updated information about your chapters!

From the Directors' Desk...

First off this month, Kerri and I would like to congratulate our home chapter in being able to present Bedford Counties Shop with a Cop program with a check for \$1100.00 at our October gathering. We are very proud of our small chapter.

In other news, membership rosters were sent to chapter Directors this week to start the chapter and membership sign up process with PA Road Riders. It seems to have been a never ending process to get to this point but with the support of the chapter directors and chapter

members I can begin to see a small flicker of light at the end of the tunnel. Had a good meeting with a local attorney today to discuss by laws, non profit status, and other issues concerning proper paperwork issues that needed addressed. Very encouraged after our meeting. This seems to be one of the easier aspects of the process. We are working on a membership card for everyone that we hope will be available for distribution the first part of the year. Anyone knowing of someone or wishing to be a member at large, meaning not associated with a particular chapter, can contact me and we will get you signed up. We would prefer if you are in close proximity to a chapter you would just join the chapter.

Carla has done a wonderful job with the new website, paroadriders.org. Keep in mind this is a work in progress. Please visit the site and give Carla your feedback. Good or Bad she needs to hear both sides, just don't be too harsh on her and hurt her feelings because I don't think I can get anyone else to do it.

Don't forget Christmas Party season, also I know a lot of you have already started planning next year's events so let's get them on the website and make use of it. I have no idea how this thing works so contact Carla with your issues on website. I heard it gets cold and snowy way up north so she will need something to do this winter.

Keep all the members who are under the weather in your thoughts and prayers.

Pa State Directors,
Eldon and Kerri Mickel

P.S. Kerri and I attended the Hobo Stew for the Maryland/Delaware chapters where Pa had 6 members present. It was attended with chapters from Pennsylvania, Maryland, Delaware and Virginia.

Preparing for winter storage!

Hello PA District

With the cold weather moving in I think that most of us have started to prepare the wings for winter storage.

Something you should consider doing before putting the wing away for the season is a **T-CLOCK** inspection.

TIRES: Your tires may need to be replaced. Now would be the time to start this project rather than waiting for the spring riding season to start.

CLUTCH: Check the clutch and brake reservoirs. Are they low in fluid or has the fluid turned a very dark color? If they have you should change both the clutch and brake fluid now.

LUBRICANTS: How long has it been since you changed your anti-freeze. Remember your anti-freeze has been working hard to keep your engine cool and to lubricate your water pump. **MAKE SURE** you use the proper anti-freeze when changing, as not all types of anti-freeze will work in your Wing.

OIL: You may wait until spring to change your oil but I personally do not think it is a good idea to leave the old oil in the engine over the winter because it contains acids as well as old oil has a tendency to turn to sludge as it sets and the dirt sinks to the bottom of the engine case.

CABLES & CONTROLS: You should check your throttle and choke cables for smooth operation. Make sure the throttle returns with a snap and to an idle when released. The choke, if equipped, also needs to work smoothly and to return to the open position.

KICKSTAND: Does your kickstand have free movement and a good spring to pull it up? Look at the switches and check the operation with the switch on. Check the center stand's return spring for smooth operation.

In addition to the T-Clock inspection, you should **check the battery terminals** and make sure they are clean and the water level in the battery is at the proper level (if it can be checked). If you are not going to run your motorcycle at least once a month during storage, you should **put the battery tender on** to keep the level of charge up to the maximum level. Last but not least you should **clean up the wing, wax it and cover it** for the winter storage season to protect it from dust.

If you take the above precautions, you should be ready to go in the spring and have an enjoyable riding season having done your preparation during the winter season while the bike is being stored.

Remember,

ALL THE GEAR ALL THE TIME. (ATGATT);

Most of all ride safe and have fun,

Your PA District Educators,

Gerry and Bonnie Kerkeslager

PA DISTRICT RIDE FOR FELLOWSHIP

Riding season will soon be over!

Greetings PA District Friends!

Welcome November and all of the Autumn beauty and Holiday celebrations that go with it! Happy Thanksgiving everyone!

Now that most of the Dice Runs, BBQ's, Ride-ins, etc. are in the rear view mirror, we can start thinking about Christmas (yes, I said CHRISTMAS) parties coming up.

Take a look at our new PA District Web Site (**Thank you Carla for doing such a great job with it!**) and see the Events listed there! While you're at it, why not think about attending one or two (maybe three)! I'd love to put your pictures in the slide show! I'm keeping track of points, so keep sending your information.

Since the **2026 Ride for Fellowship** is now in full swing, I'm enjoying your photos. Keep up the good work, get out there and visit, make new friends, and SEND ME YOUR INFO (Ride, Rally, Gathering or Event Date, Participants in your photo, where you went, who you visited & PHOTOS!) All pictures that I receive will be in the 2026 slideshow, regardless of whether the visit received a point. We want to see the fun you've been having!

Since we are independent of National, the PA District will be making a few changes, as will this program, so stay tuned! As of now, the new Guidelines are on the Website (<https://paroadriders.org/>) along with the introductory letter. The updated Points Chart will be out soon. You can contact me at ride4fellowship@gmail.com , or call me at 570-764-1280 with any questions you might have.

Ride safe, have FUN and be careful out there!

Bonnie & Gerry VanArt
PA District Ride for Fellowship Coordinators

PA DISTRICT OUTSTANDING STARS

Share your ride adventures!

Hi All,

Where has the year gone? Here it is November with the Fall Foliage as trees peak their beauty before the leaves fall. November 2nd we fall behind a hour in our time. I don't look forward to the darkness by 5:00 PM. By now we are getting our Bikes ready for their Winter.

Chapter's are active as ever during the off season! Still get together for their gatherings, Christmas Parties, a game day and of course good food!

A time to visit Chapter's. Find out where they went in 2025? Feel sure they will share the information & routes for a ride for your Chapter to enjoy in 2026. I have already been exploring areas for riding next year. Thinking Caps!

I am looking forward as the PA District will be on our own kicking off 2026! There has been much planning for this since the District Ride In Williamsport.

November we remember our Veterans on November 11th. Thank You! We Give Thanks as we gather with our Families for Thanksgiving Day!

Barry & Rhonda

End of Season Ride for Endless Mountains Riders

It was our final ride of the season. But only ONE of our members braved the elements to actually ride the bike! Still we had a great time.

Tom Schuster took us down to the Leroy Heritage Museum in Leroy, PA. Been past that place many times and never had an inkling that it was such a gem! Just loaded with local history and relics.

The building used to be an inn and was owned by the Lewis family. Our guide, Matt, told us it was the first place in the area to have electric and was pretty inviting to visitors back in the day when it was all lit up at night. He helped us imagine the ballroom on the second floor with its fancy dances, and told us about the booming town of Laquin back then, which today has been totally wiped out. So many interesting old artifacts!

After our visit, we wound our way back up Route 414 to Monroeton and Michelle's Hungry Hut, where we could rave on and on about their amazing Rachel sandwich and their fish fry. What a great time for our group!
